Sounds good. Also, could you guys send me the redevelopment configuration figures that you developed? I'd like to use them as starting points for Skeo.

Michael - I don't believe we set a time yet for the 5th. As I recall, 9:30 am EST is about the earliest we have started. I can make it sooner than that but Marc may not be able to. Let's shoot for 9:30 am for now. As I also recall, we're meeting at St. Joe City Hall but in a different room than usual. Paul has more information on that.

Jerome,
 Great. We have a meeting in St. Joe's planned for the 5th, and we should probably meet at least one more time between then and the public meeting. My schedule is open between the 5th and the 26th. I

added Diane Russell to the email. She will be coming to the meeting on the 5th. Do we have a start time for that one?

Thanks,
Michael

Folks:

I'm good with going with a public meeting and media availability session on February 26th. We'll need to huddle up early next week to work on the logistics. We need to move the process along.

Marc,
 Do you have answers to these yet? I need to be certain of the media session and the public meeting asap, as I am reserving time on other people's schedules. Also, your thoughts on when EPA should be presenting gw data results to stakeholders?
 Thanks,
 Michael

Good Morning, Michael -

February 26 works for me but we need to verify with Jeff Chamberlain and Jerome Kisscorni at the City. I don't believe the specific venue has been set yet but your timing as it relates to the media session as well as the groundwater sessions looks appropriate to me.

I was not involved with the discussions about groundwater with the various stakeholders. However, I think a follow up session (with Jeff Keiser, Mike Wetzel, et.al., in attendance) would be well received.

I'll work on firming up details on locations and times when I return on Monday, Feb. 2.

Guys,

Rick will be available for February 26th. Can we lock that date in? I am assuming that the two certain pieces to this are the media availability session in the afternoon and then the public meeting in the evening. Is that everyone's understanding?

That leaves a groundwater session with stakeholders. Would it be okay to have it the morning after the meeting, or do you guys think that it needs to be before the meeting? Morning of the 26th or even days before that? Also, how did your meeting/discussion of groundwater data go with stakeholders?

Thanks,
Michael

Subject: Re: City Timeline/Outstanding Issues/Next Meeting

Good Morning to all!

I tend to agree with Michael regarding a media availability session. I will defer to Jeff Chamberlain and Jerome Kisscorni, however.

I think approaching the media at this stage would be very helpful. All the major information is already public. There are no

"smoking guns" for us to be concerned about plus it is a great way to show that we are all cooperating on a viable solution.

While I don't mind spending time with the media, it can get a bit tedious repeating information. A media availability session also helps ensure that a consistent message is being delivered.

Marc - if you could check with Jerome and Jeff about this, I'd appreciate it.

Paul - I'm fine with the smaller room at St. Joe City Hall.

Mahalo!

I figure that the media is going to approach all parties after the meeting anyway. The benefits of scheduling something with them are that we can ensure greater clarity in our messaging and we will not be dragged away from talking with the public one-on-one after the meeting. I have found the latter to be frustrating during the availability sessions.

Can you send the link? Not sure on the media availability session. We have done a decent amount of media already and I am not sure if more is better or just more. I would like to hear Bruce's opinion on the matter and will ask Jerome and Jeff Chamberlain their thoughts.

Be well.

All,

The website is updated with the 2014 sampling data and figures and the RI data, figures and tables.

We can stop using my gmail address too.

Are we still planning on having a media availability session associated with the city meeting? I need to know if I need to reserve a couple days with Joan or Rick.

I was able to reserve a SMALL room at the City of St Joe as the Chambers are booked that day. This smaller room reportedly holds 6, but that should be fine for our needs. Let me know if you would rather try for the MDOT TSC in Coloma...

Great! Let's plan on February 5th. If you could confirm the location, Paul, that would be much appreciated. (By the way, it's 60 degrees and sunny in Phoenix right now!)

Let's do February 5. I haven't heard
back from Marc so if the 5th doesn't
work we'll do February 12. Paul-
can you reserve the room at St. Joe
City Hall?

Thanks.

Thanks Bruce,

Regarding the dates for our next meeting. I can do 2/4, 2/5, 2/10 and 2/12. I need to avoid 2/11 if possible.

Also, the public dates look good except for 2/25, that one I can't do. I choose not to discuss the 3rd item today.

Best of luck with the race and have an awesome trip!!

Subject: City Timeline/Outstanding Issues/Next Meeting

Paul, Marc and Michael -

Thanks for the phone call last week Thursday. A good discussion (again) and, as always, the

input and discussion
are much appreciated.

Good article in the
Kalamazoo Gazette
on Sunday, January
11, 2015. Glad that
Michael was able to
provide comments as
well. Here's a link (if
needed):

http://www.mlive.com/news/kalamazoo/index.ssf/2015/01/allied_redevelopment.html

As is fairly normal,
some of the quotes
(from me, anyway)
weren't exactly
correct but that's to be
expected.

As promised, I have
prepared a couple of
things plus have some
dates for our next
meeting.

First, the dates. I
looked at the calendar
and I have open the
following
dates: February 4 & 5
(Wednesday and
Thursday) and
February 10, 11, & 12
(Tuesday, Wednesday
and Thursday). I'm
actually open all that
week but thought
we'd want to keep the
meeting in toward the
middle of the
week. Of course, the
meeting would be
weather-
dependent. Let me
know what works for
everybody.

Second, I've attached two documents. The first is a proposed Timeline from the City's perspective. Marc and I are meeting this afternoon to discuss some of the public input process at the the public meeting with the Kalamazoo City Planner. Right now, some dates for the public meeting are: February 17, 18, 19, 24, 25, or 26. The date should be nailed down fairly soon as well as a location. We have about 5 potential locations where we could meet. The second document is a list of outstanding issues that we may want to discuss at our early February meeting. Some of the issues aren't all the critical but we may want to flesh out the list and make sure we're tracking the issues appropriately so we don't miss anything.

Third, as Marc is aware, I'm beginning to phase out my formal involvement with the City and the Allied Superfund Site. My contract with the City ends in mid-May 2015. I will begin to transfer my responsibilities to others at the City (namely Marc) as I

begin this transition over the next couple of months. I'm not disappearing from Kalamazoo or from informal involvement in the future. I'm still discussing how I can be available for any ongoing needs and will be available after May, on an as-needed basis. This is not meant as any type of negative reaction to the process either, believe me. I've been very fortunate to be involved in this great effort with some great people. It's just time for me to move on to other things.

I will be checking my emails once a day over the next couple of weeks. I may not respond immediately, but I'll try to do so within a couple of days.

Take care and stay warm!

Bruce
